

HOME LEARNING

At Larkhall we agree the purpose of home learning is to offer children the opportunity to refine, practice and embed their existing knowledge building on the learning they have done in class. We have key ‘*expectations*’ around what children should do each week at home, and also offer other ‘*opportunities*’ which further support and develop their knowledge.

Absence from School

Where children are due to be off school for an extended period of time, a meeting will need to take place between home and school to set specific goals and agreed timescales.

Home learning will be arranged on request linked to the children's targets and parents will be expected to engage fully in the process.

Where it is agreed google classroom will be the forum for learning, work must be completed and submitted online for the teacher to review. Where paper packs of learning are agreed parents will be responsible for sending this into school at agreed timescales where work can be marked by the teacher and new learning given.
