- 15.07 Sports Day
- 17.07 Year 6 graduation

Children need to be in school at 8:30am - 8:40am each morning! We register at 8.45 am.

Personally, Social, Character Development

The traits that we will be focusing on this term are **curiosity, gratefulness, hope, judgement, appreciation, healthy body, and honesty.**

It would be great if you could discuss these with your child at home.

History, Geography & Social Understanding

In Geography we will be focusing on trade and economics and pay close attention to Fair Trade and how this impacts workers globally.

In History we will learn about leisure and entertainment. This will develop children's knowledge of modern British history and understanding of changes over time. Throughout the unit, they will be encouraged to think about the impact of leisure and entertainment on society and people's everyday lives.

Understanding English, Communication & Language

This term, we will be reading two key texts to inspire our writing where we will be writing **a story and a diary entry.**

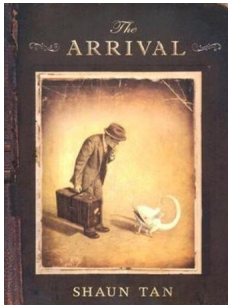
These genres of writing will allow the children to bring all of their writing techniques together and create pieces that show off their skills.

Please remind the children to continue practising their spellings at home.

PSHE

This term, an important part of our learning is about Personal, Social, Health and Economic education. A vital component of this learning scheme will involve RSE (relationship and sex education). We feel that it is incredibly important for children to learn the correct information, alongside having a safe space to ask any questions they may have. A letter with more detailed information about the specific lessons has been posted on Class Dojo. Please feel free to contact us if you have any questions.

The Arrival



Computing

In computing this term we will be continuing to look at **Data information and how to create spreadsheets.**

Understanding the Arts

This term, children will be working together to create a collaborative art piece, exploring the power of colour through a variety of mediums and materials.

In DT, children will be designing and building their own marble runs! They'll be exploring shapes, stability and how to create strong structures, all while using creativity and problem-solving.

Mathematical Understanding

This term we will be revisiting some key concepts as well as show understanding to a Greater Depth Level. This provides the children with a great opportunity to build on their confidence before secondary school.

These areas of maths include:

- **Addition, subtraction, division and multiplication**
- **Percentages**
- **Shape**

Understanding Physical Health

PE this term will be focusing on **Athletics and Cricket** These will be excellent opportunities to show off their BLP skills, especially collaborating, perseverance and noticing. Children are able to come to school in their PE kits on Tuesday and Friday.
